

# Black Mountain Golf Course Hua Hin

Black Mountain Golf Course in Hua Hin has a number of times been voted the best championship course in Thailand.

Black Mountain Golf Club in Hua Hin, located approximately 10 km west of Hua Hin in an idyllic, mountainous landscape, is a true oasis for golf enthusiasts. Since its establishment in 2007 with the ambitious goal of becoming Asia's leading golf course, Black Mountain has not only realized this vision but also hosted prestigious tournaments such as the Royal Trophy and True Thailand Classic.

This 27-hole championship course, consisting of the three nine-hole courses East, North, and West, is a paradise for every golfer. Each course has five tee boxes, ensuring a memorable experience for all golfers. The East Course, the original first nine holes, offers spectacular holes, including two risky par 5s and a par 4 with an island green. The North Course, the original last nine holes, includes the famous par 3 second hole, known for its breathtaking views and elevation changes. The West Course, opened in 2016, complements the original holes and enhances the challenging golf experience.

The course is known for its impressive design, with a mix of blind holes, doglegs, and greens that require uphill or downhill shots, as well as large bunkers and challenging pin placements. Combined with lightning-fast greens and a perfectly maintained course with advanced irrigation systems, Black Mountain remains a challenge for both professionals and amateurs.

The facilities at Black Mountain are as impressive as the course itself. A magnificent clubhouse with excellent facilities, an exquisite restaurant with panoramic views of the course, and additional amenities such as a hotel, spa, and a driving range complete the overall golf experience.
